15th January 2025

Dear Parents / Guardians,

Arrival of the 2024/25 Influenza Season in Hong Kong and Additional Measure on Temperature Monitoring

The local seasonal influenza activity has continued to increase recently, indicating that Hong Kong has entered the 2024/25 influenza season. To ensure the health and well-being of all students and staff on campus, we kindly urge parents and students to collaborate by adhering to proper personal hygiene practices and preventive measures to mitigate the risk of influenza and other respiratory infections.

In light of the current influenza season, the school will implement daily temperature screening for all students upon their arrival. Students are also required to comply with the following hygiene and preventive measures:

1. If students have symptoms, such as fever (oral temperature higher than 37.5°C, or ear temperature higher than 38°C), regardless of the presence of respiratory symptoms, they should not return to school and must inform the school;
2. Maintain hand hygiene, avoid touching one's eyes, mouth and nose;
3. Wash hands with liquid soap and water properly whenever possibly contaminated;
4. Cover the nose and mouth with tissue paper when sneezing or coughing. Dispose of soiled tissue paper properly into a lidded rubbish bin, and wash hands thoroughly afterwards;
5. When having respiratory symptoms, wear a surgical mask, refrain from work or attending classes at school, avoid going to crowded places and seek medical advice promptly;
6. Build up good body immunity by having a balanced diet, exercise regularly, take adequate rest.

The school will closely monitor the health situation of students and staff. For enquiries on the situation of school, please contact us on 28587002.

Yours sincerely,

CHUNG Yiu Kee
Principal
